## PROJECTS

---

### "Tradetron"

Tradetron.tech is a no-code algo strategy builder and a marketplace. It allows you to create complex multi-legged algo strategies, backtest them, and then deploy them in your own brokerage account or list them on the marketplace for a fee so that other subscribers can also deploy them. It's linked with 8 exchanges covering stocks, options, commodities, currencies, cryptocurrencies and linked with 35 brokers in US and Indian markets. Some 11k algos are deployed on our system which take 1.5 million trades every month in paper trading and live accounts and we send notifications to users via WhatsApp, sms, email, phone call.

### "Skoll"

Connect with loved ones and send drinks, meals and experiences instantly. Be a part of the celebration even when you can't be there in person. Send someone you care about a meal at their favorite restaurant or treat a friend to a few cocktails on their birthday! Personalize your gift with a heartfelt message, or why not upload a video to commemorate the occasion? Skoll also lets you know what's happening in your local area – 2 for 1 Tacos at Casa Mexicanos tonight? We're in!

**Android:** <https://play.google.com/store/apps/details?id=com.agrinews.agrifm&hl=en&gl=US>

## “Sportfolio”

SportFolio is a dynamic app revolutionizing the pursuit of sports-based scholarships and higher education opportunities. With its comprehensive features, SportFolio simplifies the process of finding universities offering sports scholarships, assisting athletes in applying for admissions seamlessly. The app also facilitates in-app purchases for additional resources and provides a centralized platform for athletes to showcase their achievements. Serving as a one-stop solution, SportFolio empowers athletes to pursue their academic and athletic dreams with ease.
